# FUTURE OF Every Nation Being Approached With Economic Proposals: Memorandum Sent To French Finance Minister

WASHINGTON, March 10 (Reuter) - What appeared to be a hint that after the return of Mr. Sumner Welles from Europe, the United States might suggest a 30 - day armistice for all belligerents, was made by Senator Key Pittman, Chairman of the Senate Foreign Relations Committee, in a broadcast.

"AFTER SKETCHING THE PRESENT EUROPEAN SITUATION, Mr. Pittman said that if the war continued into early summer it must probably be fought out to the bitter end but in view of what would be involved in such a solution the belligerents could hardly refuse to consider a 30-day armistice which would give the neutrals an opportunity to assist in finding a settlement.

# THE FINNISH CATALYZER

THE REPORTED preparations for a peace move in Finland have revealed, far more clearly than did the fighting, certain hitherto obscure features of the diploma-The TRANSFER BOOK of tic and military situation in

> of all, on the attitude of the Allies towards the Soviet Union. The British and French offers of increased help at a time when an armistice seems imminent are evidence of the fact that the hostility towards Moscow is much more pronounced than that towards Berlin before the outbreak of the war. One dispatch compares the position of Finland, should she accept the reported Soviet terms, to that of Czechoslovakia after Munich. But neither at Godesberg nor at Munich nor when German. troops were marching on Prague was Czechoslovakia offered men or guns as Finland is.

SECONDLY, it has clarified the attitude of Scandinavia. Hitherto, the impression had been that Scandinavian governments were burning to throw their full weight on the side of Finland. Now it seems that what they want is a speedy settlement, because they are afraid that the struggle in that country carries within itself the germs of a new international war in which the Scandinavian lands would undoubtedly be the battlefield. Norway and Sweden are caught in the jaws of a gigantic nutcracker. Their chief interest is to have the nut-cracker relax its pressure, not to have it meet over their shattered fragments. This is undoubtedly the meaning of their efforts to secure peace.

THIRDLY, there "is the situation in Finland itself. Militarily, the Soviet forces seem to have overcome the chief obstacles in their path and new operations, such as the occupation of several Islands in the Bay of Viborg, have been more or less speedily accomplished. also appears that there are; in Helsinki, a war party and a peace party—the first dominated by Russia's old enemy Marshal Mannerheim, the second represented by M. Paasikivi who headed the first mission to Moscow. The contest between these two groups is going on more or less sub rosa and the Finnish people are not informed of its progress or possible outcome.

FROM WHAT can gathered from the flood "of not very illuminating messages issued by the news agencies, it may be inferred that there is considerable likelihood of an early settlement of the hostilities in Finland. In view of the fact that continuation of these hostilities can have only two possible results, ultimate capitulation by the Finnish Government after further bloodshed, or the development of a new international war, with more blood and suffering, such a settlement is much to be desired.

CHINA CERTAINLY HAS lions of people in Britain and North.

# Sequel To Latest Russian Demands In Finland

LONDON, Mar. 9 (Havas)—Well-informed quarters reveal that ten days ago the Soviet Ambassador, M. Ivan Maisky, called on the Foreign Office and inquired whether Britain was willing to act as intermediary and submit Soviet demands to Finland.

It is understood Britain found the Soviet demands unacceptable and the Foreign Office merely informed Helsingfors that the Soviet had made peace suggestions.

Regarding a similar Soviet demarche in Stockholm, reliable reports confirm that Germany simultaneously issued a strong warning that Germany and the Soviet were ready to join hands in Scandinavia if Sweden became an instrument in the Allies' hands.

Paul and Bowden were constantly in the picture on the Services side—the former being exceptionally good at goal-kicking. Cuthbertson, Taylor, Ford and Millar were outstanding in the pack coming in for some good tackling and bustling play. THE PLAY

POINTLESS DRAW

A pointless draw resulted in the match between the Volunteers and the Police, at the latter's ground, on Saturday last.

The game was featured by many promising movements, which were, unfortunately, marred by poor passing and running.

Day and Altkenhead, turning out for the Volunteers, played magnificently - both of them covered invaluable ground by their. speed and ability to snap up every opportunity that came their way. Of the two, Day was the more prominent-he was more consistent and proved himself a source of danger to the opposing side every time he had possession of the ball.

In the pack, the Volunteers were best served by Macrae, Walken. Redman and Kennedy who all Highest game finish. Mr. Lord played hard and tackled well. Taylor, for the Police, played a steady game at back, whilst Fay and Wilson were prominent in the

back division. Their forwards also managed to hold their own against the Volunteers-tackling well, and Police-Taylor: Jackson. Fay. Wilson and Reynolds: Wall and

# Winter Garment Campaign Shows Good Results

Excellent results from the winter garment campaign were reported by the National Women's War Relief Association, of which Madame Chiang Kai-shek is chairman. During the period from September 22, 1939 to the end of January, 1940, it received pledges amounting to \$4,725,088.79. The sum of \$4,647,286.02 has already been received.

In addition to contributions in Chinese currency, the association has also received during the period under review £7,987.12/5, U.S. \$10,393.70, H.K. \$59,431.85, 1,000 rupees, and 74,820.39 guilders. There was another donation of \$30 in Chinese National Salvation Bonds.

The original goal of the winter garment campaign was set at 300,000 cotton-padded walsts and 200,000 cottonpadded army overcoats. As the latter could be used by the soldiers as blankets, it was decided to make more of them. By the end of January, 29,000 waists and 314,000 overcoats had, been made, plus 500,000 pairs of shoes for the soldiers.
